

### Fittings: the Fewer the Better

Every connection in your gas delivery system has the potential for leaks; the more fittings you have, the greater the potential.

## How to Order:

Product Description	Product Number	PPB at Outlet, Based on Up to 50 PPM Nominal Inlet Concentration Level						
		Fitting	CO	CO <sub>2</sub>	O <sub>2</sub>	H <sub>2</sub> O	Sulfur Compounds	NMHC*
Helium Purifier	P-100-1	1/8"	<1	<1	<1	<1	<1	<3
	P-100-2	1/4"	<1	<1	<1	<1	<1	<3
Hydrogen Purifier	P-200-1	1/8"	<1	<1	<1	<1	<1	<3
	P-200-2	1/4"	<1	<1	<1	<1	<1	<3
Nitrogen Purifier	P-300-1	1/8"	<1	<1	<1	<1	<1	<3
	P-300-2	1/4"	<1	<1	<1	<1	<1	<3
Air Purifier	P-400-1	1/8"				<1		<3
	P-400-2	1/4"				<1		<3
Methane Purifier	P-500-1	1/8"	<1	<1	<1	<1	<1	<3
Sulfur Trap	T-400-1	1/8"				<1	<1	

Brass compression fittings are standard. Also available with stainless steel compression or VCR fittings.

\*NMHC = non-methane hydrocarbons
